AUSTIN-HEALEY CLUB OF NEW ENGLAND

STATE OF THE PRESIDENT

It is official; the driving season is in full swing with many car events sponsored by our club and others. It was good to reconnect with old and new friends at the club birthday party held at the Wayside Inn in Sudbury on May 7th. Yesterday we returned from a very enjoyable Sand Dunes and Salty Air tour on Cape Cod. A full report of the event appears in this edition of HEN and I will post turn by turn directions on the club website. Follow our tour on your own and I think you will agree that Cape Cod has a lot to offer Healey drivers. Planning is well underway for Summit 2023 which will take place in Mystic, Connecticut September 24–28, 2023. More information including registration forms are available on the club website www.ahca-newengland.org. I encourage you to come to this event and take advantage of beautiful fall weather and a host of great events planned for this gathering. Mystic Connecticut is recognized as a premier vacation destination. Jud Perkins has secured reasonably priced hotel accommodations close to downtown Mystic, the Seaport Museum, Aquarium and a number of fine restaurants and shops. I encourage you to consider contributing to our 2023 club charity, Work Vessels for Vets. Work Vessels for Vets is based in Mystic, Connecticut. Its mission is to equip America's injured veterans with the tools they need to start a business or pursue career education. More information on our 2023 charity can be found on the club website. Look forward to seeing you on the road.

Best, BLK

Monday:

Experience views of Mystic County along the scenic driving roads of eastern CT during the fun rally. Monday afternoon we will have the choice of an Austin Healey Tech session or a historic informational session about native American tribes from Connecticut and history of the Casinos. Monday evening will feature a pizza party complete with a movie of general interest featuring Healey's at the Mystic Luxury Cinema.

Tuesday:

The day starts with the traditional valve cover races followed by the opportunity to experience the [Mystic Aquarium & Institute for Exploration](#), known for its research department, concern with marine life rehabilitation, and its popular [Beluga whales](#).

We've left time at the end of the day to visit other area attractions such as downtown Mystic and the [Mohegan Sun Casino](#) or [Foxwoods Resort Casino](#) with dinner on your own.

Wednesday:

Our annual car show will be at [Mystic Seaport](#) one of the nation's leading maritime museums. It is the home of four National Historic Landmark vessels. The museum's collections and exhibits include over 500 historic watercraft, a major research library, a large gallery of maritime art, a unique diorama displaying the town of Mystic as it was in

the 19th century, a working ship restoration shipyard, a planetarium, and a recreation of a seafaring village. During the car show you may want to enjoy local sailing cruises. The car show entry fee is being used to grant admission to the Seaport at a greatly discounted fee.

In the afternoon, we will have a chance to visit and sample at a local winery. Our Cocktail Hour and Awards Banquet will be back at our host hotel, the Mystic Hilton, on Wednesday evening.

Our host hotel will be the highly rated Mystic Hilton directly across the street from Mystic Aquarium, the Olde Mystic Shopping Village and Mystic Cinema. The Olde Shopping Village has more than 80 independently-owned shops and galleries offering clothing, gifts, art, jewelry, books and more.

Tech Session at British Body and Coachworks

Bob Britton

On a dreary, raw, and rainy Saturday, April 29th over 50 British car enthusiasts showed up at British Body and Coachworks in Fitzwilliam, NH to view the many projects under restoration by Mark LeBlanc and his crew of talented craftsman. Attendees were mostly from either the AHC-NE or BCNH car clubs.

Noted under various stages of restoration in the shop were 5 big Healey's, a recently painted Healey bug-eye body, 2 Triumphs, an Austin A 40 pickup, and an International Harvester Scout. Fully restored cars in the shop included a blue over white Healey BJ8 and a BRG Healey BN6 with a hard top.

After the attendees spent an hour or so reviewing the various projects under restoration and chatting with old friends, Mark gave a presentation of the various steps required for a full restoration project for a car that has been neglected for many years.

Starting with a "barn find" Healey (photo 1) which appeared to have spent most of its life rotting in a field and not a barn, Mark showed the next phase of restoration after a car has been completely disassembled and the body panels and chassis has been sandblasted to expose the significant amount of metal work required (photos 2 and 3). Mark commented that a Healey can take up to 200 hours to complete the chassis and panel restoration. The next phase is to fit the restored body panels to the restored chassis to ensure

Figure 1: typical condition upon arrival for restoration.

Figure 2: Mark discussing the many steps involved of a total restoration.

Figure 3: chassis sandblasting revealing the extensive metal restoration required.

Figure 4: after chassis is restored the body panels are fitted to insure proper alignment.

proper fit and alignment (photo 3) and then remove them so the chassis can be primed and painted (photo 4). Once this is done the car can start to be reassembled with the rebuilt engine, transmission, drive train, axles, brakes radiator, new wiring harness, etc. (photo 5). Once the car reaches this stage the body panels are primed and painted and installed on the car. The final phase includes installation of the interior, dash, lights, convertible top, dash, exhaust, bumpers, etc. to complete the restoration (photo6). Mark mentioned depending on the original condition of the car that a total restoration of a big Healey can take upwards of 800 hours to complete.

Despite the weather everyone seemed to have enjoyed the Open House and Tech Session and seeing firsthand the complexities involved in the restoration of a big Healey and other British cars. Thank you Mark for hosting this event.

Sand Dunes and Salty Air Tour - May 10, 2023

Bruce Ketchen

Our second annual quest for the quintessential Healey road amongst the sand dunes and salty air of Cape Cod continued this year starting at the Buzzards Bay Recreation Area on the Cape Cod Canal in Bourne. A few night-before arrivals checked into the Hampton Inn, overlooking the canal, before walking to the nearby Mezza Luna restaurant for a little pre-tour carbo-loading. Tour day provided perfect late spring weather, bright sunshine and cool temperatures. Seven Healeys and three BJ9's lined up for the start after getting maps and written turn by turn instructions. Drivers were given an early English penny for good luck by tour hosts Jane and Bruce Ketchen and were off, crossing the canal via the Bourne Bridge. The bridge, built in 1930 is a majestic concrete and steel structure, carrying one of the two roads to the cape. The tour continued along less traveled roads following the shore line of Buzzards Bay. Here the first of the sand and salty air was delivered. Two lane roads with speed limits of 20-40 MPH, picturesque ocean views, cranberry bogs and beautiful cape architecture set the tone for the day. Lunch for seventeen tour participants was at the Sea Crest Beach Hotel. The dining room there provides unobstructed ocean views. Nearby Silver Beach was the backdrop for a stunning photo op. The tour continued through Falmouth and on to Woods Hole along the course of the Falmouth Road Race, past the Nobska Lighthouse to the next stop, a hidden parking area along the Shining Sea Bike Path with a distant view of Martha's Vineyard. The tour concluded at the Falmouth Library where clean public restrooms were a welcome sight. For those staying overnight in Falmouth it was off to the Coonamessett Inn for check in before taking a short walk to Liam Maguire's where pre-dinner cocktails and a few pints of Guinness were hoisted. The day ended with dinner for fourteen at Eli's Tavern at the Coonamessett. Our quest will continue, same time next year as we return to the Kings Highway on route to the mid-cape. Hope you will join us. A shout out to Dave and Pam Jamieson who traveled over 800 miles from Canada in their BJ8 to be part of the tour.

Healeys at Rhinebeck

Ted Cryer

I have been attending the Rhinebeck Classic Car show in Dutchess County, NY since the 1970s. At the 51st show, on this May 7, there were six Healeys, the most I have seen there since around 1980, or earlier. At that time, it may have been a Healey club event, because I recall there was quite number of Healeys, including a 100S, which was the first time I had seen one. At that time, my attention was peaked as the convoy entered the fairgrounds and their mellow rumble and bark that makes big Healeys one of the best sounding cars, ever. Particularly when traveling is a pack, so to speak.

This May 7, the Healey corral was as large as any other British marque and included Bob Markovich

/ BN1, Dave Berube / BJ8, Sam Casarelle / Sprite Bugeye (cool red racing stripes), M. Clarke / 3000 MK1, myself / BN and Robert Scalla's 1964 3000 MK1 that was in the Winner's Circle from last years show.
