

President's Letter

BY JUD PERKINS

Help Wanted !!

As we discussed in last month's letter this has been an exciting year of change in the Club. Organization by Wing, increased events, visits to historical sites, Tech Calls, a great newsletter, a topnotch website with Members only resource guide, Summit 2017, Healey's Seaside Summit in 2018, Member Survey to help plan club activities are all part of making our Club one of the top Clubs in the country. Year to date we have welcomed 32 new members to the Club.

None of this happens without a lot of hard work on the part of a dedicated group of volunteers. Fortunately, this is represented by the Board Members, Wing Coordinators and others who have helped with this progress. To keep the momentum going we need more Club members to step up and help by volunteering to help the Wing Coordinators, host or help an event.

Organizing an event is not as time consuming as you might think. Pick a location (somewhere you would like to go), pick a date, call the location, get information on group rates, ask them information on restaurants nearby for lunch (generally most group sales folks will be familiar with the area and help), put the information together, send it to me to distribute to the Club.

Accept reservations, notify the venue(s) of the numbers and go have a ball attending the event. Take a few pictures and write a short event wrap-up for Dutcha. Generally, it takes me no more than an hour or two spread over several weeks to accomplish this.

With more of us sharing the responsibilities we can all help the Club grow and expand. If you like to help, send me an email juds3000@comcast.net or contact your Wing Coordinator.

We can't do it without you!

Thanks,

Jud

I would like anyone in the Club to feel free to contact me
with thoughts on how we can make your Club better.

NUTS & BOLTS CORNER

It's the time of the year that we have to start thinking about putting our precious Healeys to bed for the winter. Below are some of the recommendations made by the Technical Advisors Committee at our

1. Fuel Stabilizers :

The use of Fuel Stabilizer is recommended, with **Star-Tron** made by Star-Brite the favorite brand. Just pour the recommended amount into your fuel tank and run your engine for 10-15 minutes to distribute the product through fuel lines, carburetors, etc. Use of Fuel Stabilizer year-round keeps everything running cleaner.

2. Fill up your gas tank :

Leave car filled up with fuel for storage to reduce condensation

3. Tire Pressure :

Tire pressure drops naturally with dropping temperatures, so just add a few pounds of pressure in the fall and you'll be all set for the cold winter months. While some people have blocked up their cars in order to eliminate flat spots on wheels, most of the technical committee is of the opinion this is not necessary if the car is stored for just a few months in the winter. With the newer generation of tires, any 'flat spots' will quickly disappear with a few rounds around the block in the spring.

4. Don't let the mice move in and feast on your wires :

Some of the products our technical committee members use to deter the rodents from moving in under the bonnet :

Dryers Sheets , Moth Balls, Anything Mint-flavored and Electronic Gadgets.

Ted Cryer provided the most innovative product to repel mice. It seems that the little buggers are not too fond of man's best friend, DOG. Having some long-haired dogs in his household, he has an ample supply of dog hair, which he distributes in and around his Healey. He has not seen any evidence of a mouse anywhere near his car!

Another excellent option is the use of a "Car Jacket Storage Bag". These are available from a variety of internet retailers at approx. \$ 250.00. These provide a safe environment, no mice, no condensation and no one will bump into your car with the snow blower!

5. Battery Storage:

If you have a heated garage, just leave the battery in the car.

If your car spends the winter months in a cold building, you may wish to remove the battery or otherwise use a trickle charger to keep the battery charged. Not everyone likes to leave chargers plugged in for extended periods for fear of fire. But you could plug in the charger on a regular basis to keep the battery charged. It will certainly make starting up your car in the spring easier!

6. When to change your oil & filter, Fall or Spring :

Recommendation is change your oil now and store your Healey with fresh oil so sediment does not settle in. **Moss Motors** recommends oil with **ZDDP**, "formulated for classic cars", which has a high zinc content. Some members use Valvoline DR1 racing oil 20/50, available on Amazon.

7. Canvas :

Put your top up for the winter, so it does not get wrinkled.

*Congratulations to Craig Hess !
Craig's gorgeous 1959 BN6 won Concours Best in Class
at the British Invasion XXVII in Stowe, VT,*

This gorgeous 1959 BN6, owned by club member Craig Hess, won the Concours Best in Class at the XXVII British Invasion at Stowe, VT in September.

Craig has been the proud owner of the beautiful car since December of last year. After several months of searching, Craig purchased his car from a collector in the Seattle area, who had the car restored. The restoration was completed in 2014 and received its Gold Certification in 2014.

The car had been a trailer queen, but those days are gone. Since Craig intended to drive it, he spent a few months sorting out some issues. Since putting the car back on the road this spring, he has clocked nearly 3000 miles in his car.

Craig enjoys attending various classic car events throughout New England and besides taking the honors at Stowe, he also was awarded 2nd in Class at the New England Concours d'Elegance at the Mohegan Sun in June, placed first in Concours Judging at the British Motor Festival in Bristol RI and had his car selected to participate in The Boston Cup in September.

We congratulate Craig Hess on achieving his honors at these events and are happy to see him driving his BN6 to throughout New England .

Sharp Hill Vineyard and Roseland Cottage Craft Fair

October 14, 2017

By Jud Perkins

After a misty start the weatherman cooperated and gave us a super day at Sharp Hill Winery and Roseland Cottage in the "quiet corner" of Connecticut. Club members from three Wings experienced the fall foliage coming to Sharp Hill Winery for a tasting of the fine wines produced by Sharp Hill.

Lunch in the historical dining area was a culinary delight and magnificent in its presentation. After lunch the group proceeded in unison to Roseland Cottage. The Cottage was built in 1846 by Henry and Lucy Bowen. It is on the National Historic Landmarks list. In addition to touring the ground floor of the cottage we were able to enjoy the annual arts and crafts festival taking place on the grounds.

Wing's Castle

Saturday October 28, 2017

By Jud Perkins

Brilliant weather and beautiful fall foliage greeted Club Members from Wings 1,3 and 7 for our tour of Wing's Castle followed by a wine tasting and lunch at the Millbrook Winery, near Millbrook, NY.

Wing's Castle is the creation of Peter and Toni Wing and is a whimsical blend of Gillette Castle and Gaudi's creations in Barcelona. Upon returning from the Vietnam War, Peter & Toni decided to build the Castle based on their love of art. Having little or no money at the beginning, they scoured the countryside and junk yards for left over and cheap building materials, including the bottom of a water tower which when turned upside down became the roof for a portion to the structure. The entire project was built entirely by the Wing's including their two children when they became old enough to help. Sadly, Peter who loved cars was killed several years ago driving his three-wheeled Morgan. The 1947 MG-TC shown in the picture was acquired by trade for some wood carving that Peter had done.

Small world but Ted Cryer actually worked on the restoration of this car.

Toni Wing gave a wonderful and personal history of the property.

From the Castle it was a short drive to the Millbrook Winery where we experienced a tasting of six wines grown locally and on vineyards owned by the winery in Italy and California. Lunch was served outdoors on a patio and great conversation followed this exhilarating day.
